Medical Credentialing

Medical Credentialing

Attorneys at Norman Hanson DeTroy represent doctors, hospitals, and other professional organizations in complex and sensitive credentialing matters.

MEDICAL CREDENTIALING

Attorneys at Norman Hanson DeTroy represent doctors, hospitals, and other professional organizations in complex and sensitive credentialing matters. We advise both individuals and organizations regarding their rights and obligations under the Health Care Quality Improvement Act, state and federal civil rights laws, and state laws governing clinicians' relationships with insurers and managed care organizations. Our aim always is to avoid disputes, but when conflicts materialize, you can count on our trial lawyers to be uniquely prepared to advocate in court, before arbitration panels, and at institutional peer review hearings.
